

# Forensic Science

Week-long Summer Program for students entering grades 5-8

Sponsored by New Fairfield Parks and Recreation

Forensic Science combines science, math, logical reasoning, and outside-the-box thinking. In this program, participants will analyze crime scenes, prepare and examine fingerprints, take footwear impressions, type simulated blood samples, and study handwriting forgeries. Pending their availability, guest speakers will include a visit from local law enforcement. The hands-on authentic crime scene investigations will keep your junior detectives involved and engaged!

- \* Monday, July 20 - Friday, July 24
- \* 10 a.m. – 2 p.m.
- \* \$165 for the week
- \* Please provide a snack and brown bag lunch

**Located at New Fairfield Public Library**

**Online registration is suggested**
